Victoria Road - Road Closure

Notice to residents and business premises.

Pre Surface Dressing works taking place in the vicinity of your property.

Staffordshire County Council is scheduled to perform pre-surface dressing works in front of your property from Wed 24thth September 2025 between the designated hours of 08:00am and 16:30pm.

To complete the works could I please ask that you ensure the area is left clear of any parked vehicles. Should you be aware of any neighbours who may be away from their property during this time we would ask that you notify them to ensure their vehicles can be removed for the duration of the works.

We will strive to perform the work with minimal disruption; however, we will be utilizing the carriageway during the day, which will limit access near the work area. Access to frontages will be available, and staff members will be present to assist you in navigating the site.

If possible, please follow the diversions that have been put in place, this will help to keep our work force safe and minimise disruption.

Should any residents have any specific access issues, please contact us prior to works commencing to enable us to facilitate your needs during this time.

Please note we will endeavour to adhere to the dates and timescales advised, however this may change should inclement weather arise.

We would like to thank you in advance for your cooperation and patience during these works.

Kind regards
